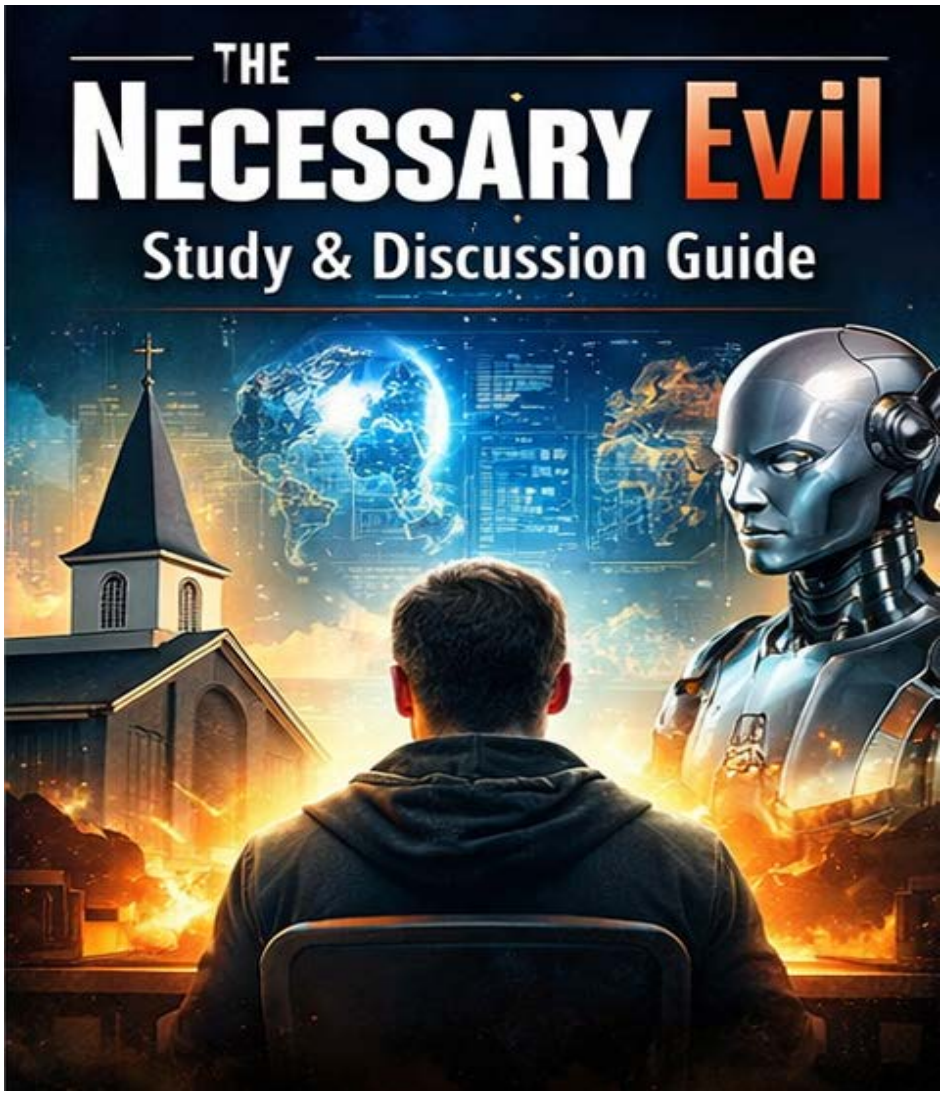
THE NECESSARY EVIL DISCUSSION GUIDE

10-Session Study on AI, Faith, and Human Dignity

✓ Small Groups • ✓ Men's Ministry • ✓ Homeschool Co-ops



By Edward Fong
Author of *The Necessary Evil*

■ INTRODUCTION

This study guide is designed for church small groups, men's groups, homeschool co-ops, and Christian discussion groups.

Each session includes key ideas, scripture reflection, discussion questions, and practical application.

The goal is to help believers understand AI's impact on faith, family, and culture—and respond with wisdom and courage.

SESSION 1: Understanding the AI Revolution

■ KEY IDEA

Artificial intelligence represents a major technological shift affecting work, culture, and human identity.

"Be fruitful and multiply and fill the earth and subdue it..." — Genesis 1:28

Discussion Questions:

1. What is artificial intelligence?
2. How has AI already impacted your life?
3. What opportunities does AI present?
4. What concerns do you have about AI?

SESSION 2: The Two Paths of AI

■ KEY IDEA

AI can either augment human abilities or replace human dignity.

Discussion Questions:

1. Where do you see AI improving life?
2. Where do you see risks?
3. How can Christians ensure AI serves humanity rather than replaces it?
4. What does it mean to 'master' AI rather than be mastered by it?

SESSION 3: Human Identity and the Image of God

"So God created man in His own image, in the image of God He created him..." — Genesis 1:26-27

Discussion Questions:

1. What distinguishes humans from machines?

2. Why does this matter in an AI-driven world?

3. How does being made in God's image shape how we use technology?

4. What happens when society forgets human dignity?

SESSION 4: Cognitive and Social Impact of AI

■ KEY IDEA

AI can weaken critical thinking and human relationships if used carelessly.

Discussion Questions:

1. Could AI weaken thinking skills? How?
2. How can we prevent cognitive atrophy?
3. How does AI affect human relationships?
4. What boundaries should families set?

SESSION 5: AI and Culture

■ KEY IDEA

Technology shapes culture, and Christians have a responsibility to engage wisely.

Discussion Questions:

1. How does technology shape culture?
2. What responsibility do Christians have in shaping technology?
3. How can believers influence AI development and use?
4. What does faithful cultural engagement look like?

SESSION 6: AI and the Church

■ KEY IDEA

The Church must respond to AI with wisdom, not fear or ignorance.

Discussion Questions:

1. Should churches ignore AI? Why or why not?
2. How could churches respond wisely to AI?
3. What role should pastors play in teaching about technology?
4. How can the Church protect human dignity in an AI age?

SESSION 7: Family and Technology

■ KEY IDEA

Families must set boundaries and teach discernment around AI.

Discussion Questions:

1. How should families approach AI tools?
2. What boundaries should exist for children?
3. How can parents teach critical thinking about technology?
4. What does healthy technology use look like in a Christian home?

SESSION 8: Work and Automation

■ KEY IDEA

AI will change careers, and Christians should prepare wisely.

Discussion Questions:

1. How might AI change careers and industries?
2. How should Christians prepare for these changes?
3. What does faithful work look like in an automated world?
4. How can believers maintain purpose and dignity in their work?

SESSION 9: Technology and Faith

"Do not be conformed to this world, but be transformed by the renewal of your mind." — Romans 12:2

Discussion Questions:

1. How do we guard our thinking in an AI-saturated world?

2. How can technology serve faith rather than replace it?

3. What does it mean to renew our minds in this context?

4. How can we use AI for ministry without compromising truth?

SESSION 10: A Vision for the Future

■ KEY IDEA

Christians must engage technology with wisdom, humility, discernment, and faith.

Discussion Questions:

1. What role should Christians play in shaping technology?
2. What does faithful stewardship of AI look like?
3. How can we ensure technology serves human dignity and God's purposes?
4. What is your personal commitment moving forward?

■ FINAL CHALLENGE

Artificial intelligence will influence the future. Christians must engage technology with wisdom, humility, discernment, and faith.

The goal is not to reject innovation. The goal is to ensure technology serves **human dignity and God's purposes**.
